Recent Operations

By Paul Rardin

The 1943 legislature was convened in Tallahassee on Tuesday of this week. More than 150 bills have been introduced in the House and the total is almost that high in the senate during the first week of the session.

Russell Kay, secretary of the Florida Press association, who is attending the session, quotes Representative L. C. Crofton of Breckinridge county in his seconding the nomination of Speaker Richard H. Simpson as follows: "The peroxide of time has touched his hair and gently turned it to silver. This is but a good omen, for his experience, his learning, his knowledge, have ripened into wisdom that comes with an early melting of age."

"The right of citizens to work shall not be abridged or denied on account of membership or non-membership in any union or labor organization." These were the words of the amendment which will form a provision upon which the citizens of Florida will vote this fall if the senate concurs with the House which has already passed the bill by a vote of 66 to 20. Messrs. Beck and John E. Bollinger, Palm Beach county's delegation to the House, were among the 25 who voted against passage of the proposed amendment to the people in the 1944 general election.

Rep. Lucy Thomas of Groveland in Lake county would turn back her clock an hour. He introduced in the House this week which would place Florida on Central Standard time.

While 95 House members and 37 senators were scrutinizing their heads in effort to find some means of replacing the \$3,500,000 lost revenue, the first bill introduced by Senator Beacham of Beacham of Palm Beach county called for a raise in salary of the court judges. The senators bill would up the \$5,000 salary to \$6,000 a year. The senators thought it is good to have money but considered early in the session and sought to waive the rules and bring the bill up for immediate consideration. The motion lost when several senators opposed the plan, pointing out that the senators might better devote their efforts to solving state financial puzzles before raising salaries.

C. P. School To Have Interesting Program

In as much as Jefferson Day, April 13, and Pan-American day, April 14, fall in the month of April, the Seventh and Eight grades at Canal Point School are commemorating both with short plays Friday afternoon at 2:45 o'clock.

Jefferson, who returns in spirit explains what he meant by "We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty, and the pursuit of happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed. And whenever any government becomes destructive of these ends, we have the right to alter or to abolish it, and to institute new government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem best, for the security of their lives, liberties and happiness."

The seventh grade play tells the story of "The Charge of the Light Brigade." The Statue of Liberty is placed high in the Andes on the boundary between Chile and Argentina and the story tells of the quest for the statue.

Miss Jane Maxwell, teacher of the eighth grade, is directing the play. Miss Maxwell, teacher of the eighth grade, is directing the play. Miss Maxwell, teacher of the eighth grade, is directing the play.

Finance Drive For Scout Council To Begin On April 26

Leaders Hope Public Will
Respond With Liberal
Donations

Scouting, the best insurance that can be taken out for the future of the world, is the character training and leadership development of the American youth. The world is enveloped in war today, because of boys. If it were not for boys Hitler could never have started the war and made such progress. Boys place implicit faith in adult leadership. They know this and by concentrating on the boys is built the greatest mass of organized criminals in the history of the world.

"America's only hope to take a hand in the world, to finish a leadership of the character and ability to police the world and maintain peace after the war is won, is to give her boys a good, strong, virile leadership. The Boy Scouts of America is the only organization in America which is especially equipped to develop leaders of character."

The Gulf Stream Council maintains its service for every Boy Scout Troop, Sea Scout Ship, and Cub Pack in every District equal from the funds contributed each year by the respective District. The 1943 budget for the Council averages \$4.04 per boy. In the North Glades District Pahokee-Canal Point, there are 224 boys of Scout age who are to be served by the Council.

The Finance Committee under the leadership of B. Elliott of Pahokee is hopeful that a fine response will be made. J. B. Cox is chairman of the North Glades District, and states that the Troops of Canal Point and Pahokee are under very efficient leaders, and it is hoped that these leaders will be warmly supported in this drive.

STORY FROM NAZLAND

A Berlin citizen with a thousand marks planned to subscribe to one of the war loans, but being a cautious individual, he asked a clerk who was guaranteeing the loan. He was told that the fuhrer himself was back of it.

"But if something happens to the fuhrer?" Then he was told Goering would carry on. "But Goering is also at the front," persisted the cautious one. "He, too, might be killed."

"In that case," said the patient clerk, "the whole national socialist party will guarantee the loan."

"Yes, but if the party dissolved, what then?"

The clerk leaned closer, whispered confidentially: "Wouldn't that be worth a thousand marks to you?"—News From Belgium.

MORON STORY

"Another moron - in the swimming pool story. This time, when the hero starts a dive and a bystander calls his attention to the fact that there's no water in the tank, he says: 'It's all right. I can't swim anyway.'"

And there's the fellow who thinks that buying the draft age is just like putting money in the bank for the government. Every time they lower it, he says: "I can't swim gets a couple million more bucks."—Collier County News.

MAIL ORDER HOUSES

Mail order houses are available to busy western farmers and stable owners now. A Chicago stockyard auctioneer announced he will accept orders for saddle horses by mail. The animal is shipped prepaid and if it isn't satisfactory the seller bears the cost of return. Eighty-five saddle horses went on the block at the stockyard's pavilion this week. The demand is rising; the supply is dwindling.—Wall Street Journal.

WORDS AND SENTENCES

A newspaper columnist tells of getting this letter in his mail:

"I wonder if you will overlook my presumption and forgive my impertinence to such an extent as to inform me, at your convenience, whether it would be possible for me to procure some sort of mammal, not too advanced or technical, wherefrom I could obtain some knowledge of language, not from a grammatical point of view, but more concerned with the differences between acceptable and unacceptable usage."

The writer, though seeking help to improve his style, probably thought he was using pretty good English. But the columnist, after studying the letter a little, decided that he meant, "Please tell me of a handbook on English usage," and needed it.

It is strange how many people seem to think good English is long words and long sentences. Perhaps it should be required practice in schools and colleges to have students read, one a week, the biblical account of the creation of the world.—Sanford Herald.

THE TELLING VERSE

A gentleman from Utah once fired Mark Twain into an argument concerning polygamy, belaboring the humorist with long and tedious exposition in favor of plural marriages. Mark strove valiantly to beat down the claims of his adversary, but with little success. Finally the man challenged Twain to cite some passage of Scripture expressly forbidding polygamy.

"Certainly," replied the humorist. "No man can serve two masters."—Collier County News.

HOTEL DIFFICULTIES

The Casa Marina hotel in Key West catering to military officers and their families, will close April 10. Peter Schutt, hotel manager, said that the president of the Florida East Coast Hotel Co., owners of the hotel, hadget April 10 as the closing date. Exact figures showing justification for the decision to close the hotel were cited by Schutt.

"There are now 267 guests in the hotel," Schutt said. "There are 159 guests on the Executive plan from whom we have been receiving \$12.35 since March 24, prior to that date we received only \$1 from these guests. There are 117 wives and children from whom we receive \$3.25 per day under the American plan. Before March 24 we received \$3 per person under the American plan."

"The navy has placed a ceiling price on what we can charge," Schutt said, "but there is no ceiling on cost of our foodstuffs and the wages we pay our help."

"Wages paid at the hotel now are far in excess of wages paid when the hotel was receiving considerably more per day from a guest than is now being paid," he said. "We cannot compete with wages being paid in the navyward, on defense projects and in hotels in Miami," Schutt said. "The turn-over has been great and it is now impossible to replace help."

Foodstuff for the dining room has been another problem.

"Although we are catering to service people we are unable to purchase through the navy commissary, or to make purchases under government contract," Schutt said. "With the prevailing food shortage in this city we are faced daily with a problem to obtain food. The greatest difficulty has been in obtaining meats.—Miami Herald.

THE EVERGLADES NEWS, CANAL POINT, FLORIDA

he dish to suit the tastes of all lovers of music, beauty and romance.

I hardly know what to say about this Monday-Tuesday offering. There will be customers who will thoroughly enjoy "The Young Mr. Pitt," starring Robert Donat, Robert Morley, Phyllis Calvert and John Mills, because it is a story yesterday, perfectly written, ably directed and faultlessly cast. It is, as I have said, yesterday's story that could very well be the story of today—so don't let the title fool you, it is a worthwhile show, and if you have an ounce of dramatic appreciation you'll enjoy it.

Gale Storm and John Sutton move in Wednesday - Thursday on a double fourth program, relaying a tale of the F. B. I. and their heroic fight against foreign agents. It is the dramatic revelation of the dangers that lurk in the very shadow of Uncle Sam's mighty ramparts and it's title "Foreign Agent" tells you exactly what you may expect when you sit this one out.

On the same evening you will witness a "rug cutting" musical "Strictly In The Groove," which stars Mary Healy, Richard Davis and Leon Errol. Having nothing to speak of to go on I can't tell you much about it. But one thing is certain. Leon Errol, who is one of the stars, will provide all of the belly laughs in the piece, for he and his rubber legs have never failed yet.

That personable young man Lloyd Noon, teamed with the lovely Heather Angel, brings in an exciting piece for the Friday entertainment titled "Time To Kill." This is another one of the series of Mike Shayne, and with the E for merit that has been chalked up against all those that have preceded this one, I am sure it will prove a very enjoyable show.

YOU CAN FIGHT THE AXIS, TOO!

YOU don't have to have a uniform or gun to fight the Axis! Right in your own home you're striking a blow at the enemy whenever you save time or material for the war effort.

For example, proper operation of your electrical appliances is a direct blow against Hitler and his partners in crime. You see, electricity is made with fuel oil, and efficient use of your appliances prevents waste of this vital war material.

EFFICIENCY GOES HAND-IN-HAND WITH BUSINESS MANAGEMENT

Little savings multiplied many times add up to maximum efficiency. Through constant improvement of business management utilities produce electricity without wasting fuel oil. Use your appliances properly and avoid waste in your home.

When you waste Electricity - You waste Fuel Oil!

THOUSANDS OF ARMY VEHICLES USE SINCLAIR LUBRICANTS

In saving wear and avoiding breakdown the U. S. Army uses Sinclair lubricants in many "Jeeps," tanks and other vehicles. Your Sinclair Dealer has the same quality lubricants to reduce wear in your car.

To save engine wear he has Sinclair Opaline Motor Oil. Opaline stands up better and lasts longer because it is not only de-waxed but also de-jellied. Play safe, have your Sinclair Dealer drain and refill your crankcase with Opaline every 1,600 miles.

The Seat You Didn't Get

When you have difficulty in obtaining a coach seat or Pullman reservation on our trains these days, some young man in uniform may be riding in the space you didn't get.

He may be on an urgent military mission - enroute to a training camp or port of embarkation, some to leave for some grim battlefield far from the comforts of home and native land.

Thousands of such men are traveling today up and down the Florida East Coast Railway. As this military activity

increases, less and less space on our trains remains available for civilian use. So if you have to postpone your departure, if your train is delayed by war traffic and a bit crowded, such inconveniences you'll agree are far preferable to travel at the point of an Axis gun off to a concentration camp or industrial slavery.

Meanwhile, ask yourself whether or not your trip is absolutely essential. If it is not, avoid occupying travel space needed to speed vital military operations.

Let's Put the New War Loan Over the Top

THE SECOND WAR LOAN DRIVE IS ON.

AMERICA... YOU'VE GOT TO GET TOUGHER!

AMERICA — Let's be frank about it... so far, many of us back home have been fighting this war from an easy chair.

Many of us have bought War Bonds out of extra cash, out of money we didn't miss too much. We haven't been really tough with ourselves.

But this war is a hard, down-to-reality war. And many of our boys are dying in it.

We've Got To Build More!

We broke all records building 8 million tons of shipping last year. But grim-faced Army and Navy men will tell you that the 18 MILLION tons we're building this year still won't be enough!

We've Got To Fight More!

From now till this war is won, America must be on the offensive. In ever-increasing numbers, your sons, brothers, husbands must go into actual battle. Our losses have already begun to mount—and they will not grow less.

And We've Got To Buy More War Bonds!

Sure we're all buying War Bonds now. But we've got to help pay for our increased fighting and building... We've got to match, as best we can, the sacrifice of those Americans who are toiling and sweating on a dozen battlefronts—with the bloodiest yet to come. The blunt fact is this: to keep our war machine going we've got to dig up 13 billion extra dollars this month. 13 billion dollars over and above our regular War Bond buying!

In the next few weeks you may be visited by one of the thousands of volunteers who are contributing their time and effort to this Drive. But don't wait for him. Make up your mind now that before this drive is over, you're going to march right

down to your nearest bank, Post Office, or place where they sell War Bonds, and do your duty. And don't ever forget this: in doing your duty, you're doing yourself one of the biggest favors of your life!

For United States War Bonds are the greatest investment in the world—bar none. They're investments tailored to fit your particular situation. And they give you the chance of a lifetime to order and get the kind of world you want to live in after the war. Every cent you put in War Bonds now will help to guarantee plenty of peacetime jobs making peace-living for every one of us.

For your Country's sake—for your own sake—invest all you can!

Soldiers.. ON THE TRANSPORTATION FRONT

YOU hear more and more today about the ground crews—the boys back-stage who keep them ticking . . . and upon whose skill and energy successful prosecution of war and production so much depends.

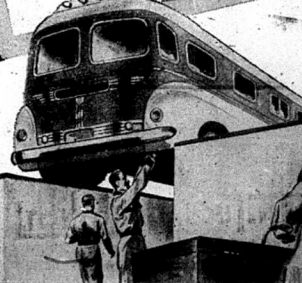

Just such groups comprise the maintenance forces of Florida Motor Lines. They, too, are the unsung, behind-the-scenes stalwarts to whom we owe so much of our ability to "keep 'em rolling."

Yep—they are all fine performers . . . intelligent, hard-working, loyal . . . specialists as a result of years of training. These boys are in there swinging with both hands to squeeze every ounce of performance out of existing equipment—irreplaceable equipment. For war's extra burden on transportation takes heavy toll and brings hard hours to keep today's transportation fleets up to pre-war standards of safety and comfort.

You can join the "hard-earned" on these fellows to do a bang-up job. They're real soldiers . . . good, solid Americans who have shown a willingness to work like fury, when few will ever know the importance of their labors.

THE OLD JUDGE SAYS...

"The more I read about it, Judge, the more I realize the tactics and requirements of this war are as different from the one I fought in 25 years ago as night is from day."

"Yes, and I can give you an example of how true that is, Fred. In World War I the chief uses of alcohol produced for war purposes were found in smokeless powder, medical supplies and chemical warfare materials. In this war the need for this product is far more vital because it is also used as a fuel to propel torpedoes, to make shatterproof glass

for airplane windshields and instrument covers, to make lacquers used in camouflaging equipment; and as a base for synthetic rubber needed for tires, gas masks, paratroop equipment and dozens of other things."

"Every time I think of it, Fred, I realize how fortunate we were in having a beverage distilling industry in existence when war broke out . . . ready and willing to convert 100% to the production of this critically needed war product. My mighty war boot-leggers wouldn't have."

Chairman of Alcoholic Beverage Industries, Inc.
